

Remote Work Policy

Eligibility

Remote work arrangements are available to full-time employees who have completed their 6-month probationary period and whose role can be performed effectively outside the office. Eligibility is determined by the employee's manager in consultation with HR.

Remote Work Days

Eligible employees may work remotely up to 3 days per week. The specific days must be agreed in advance with the employee's manager to ensure adequate team coverage and collaboration. At least 2 days per week must be worked from the office.

Core Hours

All employees, whether working remotely or in the office, must be available and responsive during core hours of 10:00 AM to 3:00 PM in their local time zone. Meetings should be scheduled during these hours where possible.

Equipment and Technology

The company provides a laptop for all employees. Employees working remotely are responsible for maintaining a reliable internet connection. The company will provide a monthly internet stipend of EUR 30 to help offset home internet costs.

Security Requirements

Employees must use the company VPN whenever accessing internal company systems, databases, or confidential information remotely. Company devices must be kept physically secure. Employees must not use public Wi-Fi without the VPN.

Performance Expectations

Remote work is a privilege, not a right. If an employee's performance declines or the arrangement creates business problems, the manager may require the employee to return to full-time office work. Remote work arrangements are reviewed annually.

Health and Safety

Employees are responsible for ensuring their remote workspace is safe and ergonomically appropriate. The company may require employees to complete a home workspace assessment. The company is not liable for injuries that occur in a non-compliant home workspace.
